

REMARKS

The first paragraph on page 1 of the specification has been amended to recite that the instant application is a divisional of application no. 09/781,814. The specification is also amended to reflect amendments to the specification made during the prosecution of application no. 09/781,814. The specification has been amended at page 5, lines 21-22, Brief Description of FIG. 6, to include reference numbers, present in FIG. 6, in the Brief Description of FIG. 6. The reference numbers and the computer system to which FIG. 6 refers are described in the specification as filed on pages 35-37. The specification has also been amended in the paragraph at page 7, line 29 to page 8, line 12, Brief Description of FIGS. 13A-E to remove references to color. This amendment is supported in the specification at page 44, lines 6-19.

Claims 1-184 are pending in the application. Claims 1-121, 123-177 and 179-184 are hereby canceled without prejudice to the right to pursue the subject matter of these claims in the instant application or in related applications. New claims 185-232 are added. Upon entry of the above-made amendment, claims 122, 178 and 185-232 will be pending.

Support for new claim 185 is found in the specification at page 16, line 31 to page 18, line 5. New claims 186-231 correspond in recitation to canceled claims 125-166 and 168-171, respectively, with some changed dependencies. Thus, new claims 186-231 are merely re-ordered claims with amended dependencies. Support for new claims 186-231 is found in claims 125-166 and 168-171 as originally filed, and in the specification at Sections 5.2.1 and 5.2.2. New claim 232 is supported in the specification at page 17, line 30 to page 18, line 5. As such, no new matter has been added by these new claims. Entry of the foregoing amendments is respectfully requested.

CONCLUSION

Applicants respectfully request entry of the foregoing amendment and remarks into the file of the above-identified application.
